

Teaching **values** and building character

Tuition Assistance: Scholarships and financial aid grants help make a CCA education affordable.

The innovative K-5 Open Circle curriculum at Cape Cod Academy teaches important social and emotional skills that are the building blocks of a child's character development.

Open Circle empowers children to create positive relationships, manage feelings and behaviors, respect differences with empathy, and be a better problem solver.

At every grade level, we give priority to a well-rounded education, not to standardized tests. Come see the Cape Cod Academy advantage for yourself. Schedule your family's personal tour today.

**CAPE COD
ACADEMY**

An independent college preparatory day school for grades K-12.
